

### REMARKS

Applicants request the entry of the change in the specification requested above. In the Supplemental Amendment and Response to Communication filed on January 15, 2004, the sequence of H12 was inadvertently altered. The present amendment lists the sequence of H12 as provided in the application as filed. No new matter has been added by virtue of the amendments made to the specification.

The amendment to the specification at Table 1 is submitted to make the sequences consistent with those of the application as filed and those of the revised sequence listing filed on January 15, 2004, as well as to provide sequence identifier numbers. Support for the present amendments can be found throughout the application including the claims and drawings as filed originally. No new matter has been added by virtue of the amendments.

If for any reason an additional fee is required, a fee paid is inadequate or credit is owed for any excess fee paid, you are hereby authorized and requested to charge Deposit Account No. 04-1105.

Respectfully submitted,

Date: March 11, 2004
